PREAMBLE OF THE CSRA REGIONAL COMMISSION

It is hereby affirmed that the local units of government in the CSRA have many common concerns that transcend their individual borders; the destinies of each unit rest with the interdependent actions of the family of local governments, which comprise the Central Savannah River Area, It is vital to retain local home rule while providing resources to meet area wide challenges beyond the capabilities of individual units; expansion of the concept of multi-county cooperation among units of local governments is an effective means of achieving this vital goal; and cooperation must be fostered in two ways, by strengthening the abilities of local governments to meet individual local needs and by developing an association of local government to meet common regional concerns.

Chairperson, Council Members, Members of the Central Savannah River Area Regional Commission and Citizens of the CSRA

Ladies and Gentlemen:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Central Savannah River Area Regional Commission (the Commission) for the fiscal year ended June 30, 2010. State law requires the Commission to keep books of account reflecting all funds received, expended, and administered by the Commission which shall be independently audited at least once in each fiscal year. Such audit shall be conducted in conformity with generally accepted government auditing standards (GAGAS) by a licensed certified public accountant. This report is published to fulfill that requirement for

the fiscal year ended June 30, 2010.

Jefferson Management assumes full responsibility for the completeness and reliability of all of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal controls Jenkins

should not exceed anticipated benefits, the Commission's comprehensive framework of internal controls is designed to provide reasonable rather than absolute assurance that

the financial statements will be free from material misstatement.

Lincoln Mauldin and Jenkins Certified Public Accountants, LLC has issued an unqualified ("clean") opinion on the Commission's financial statements for the fiscal year ended June 30, 2010. The independent auditor's report is presented as the first component of the

McDuffie financial section of this report.

> The independent audit of the financial statements of the Commission was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing a Single Audit engagement require the independent auditor to report not only on the fair presentation of the financial statements, but also on the Commission's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports can be found in the single audit section of

this report.

Warren Management's Discussion and Analysis (MD&A) immediately follows the independent's auditor's report and provides a narrative introduction, overview, and analysis to

accompany the basic financial statements. MD&A complement this letter and should be

Washington read in conjunction with it.

PROFILE OF THE CENTRAL SAVANNAH RIVER AREA DEVELOPMENT COMMISSION

The Central Savannah River Area Regional Commission succeeded the former Central Savannah River Area Regional Development Center (Center) effective July 1, 2009. The Official Code of Georgia Annotated (OCGA) Section 50-8-41 provided for this succession.

Wilkes

Richmond

Taliaferro

All contractual obligations to employees, other duties, rights, and benefits of the Center automatically became duties, obligations, rights, and benefits of the successor Commission.

The Commission is a special purpose local government existing under the authority of Georgia law as provided for by the OCGA § 50-8-41. The responsibilities and authority of the Commission are contained in Sections 50-8-30 through 50-8-67 of OCGA. The Commission assists local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. Membership assessments, federal, state, local, and private grants/contracts finance operations of the Commission. Grants from federal, state, and other sources are the primary sources of revenues permitting the Commission to meet its responsibilities. The Commission's membership consists of the thirteen counties and thirty-nine cities in east Georgia, known as the Central Savannah River Area (CSRA). The Commission also is financially accountable for three legally separate corporations, all of which are reported separately within the Commission's financial statements. The Commission's component units operate collectively as CSRA Business Lending. Additional information about these legally separate entities can be found in Note I.A in the notes to the financial statements.

The Commission's Council is responsible for establishing policy and direction. The objectives of the Commission are to develop, promote, and assist in establishing coordinated and comprehensive planning in Georgia; to provide local governments on both an individual and regional basis with professional technical assistance to improve local government service programs; to provide professional technical assistance with the development, collection, compilation, and maintenance of a local information base and network; to manage those nonprofit corporations created by the Commission in accordance with Georgia law for the operation of revolving loan programs and function as a certified development company; and to function as the designated Area Agency on Aging (AAA) for the CSRA, responsible for identifying the needs of older CSRA residents, planning and coordinating regional aging services, advocating on behalf of older persons in need, and contracting with a network of agencies to provide direct services to the elderly in the CSRA.

FACTORS AFFECTING FINANCIAL CONDITION

The availability of State and Federal funding to the support activities undertaken by the Commission to assist its members directly affects the Commissions' financial position. The Commission derived over ninety-five percent of its income in Fiscal Year (FY) 2010 from through intergovernmental grants and contracts. This percentage is consistent with prior years. The Commission's continued success is dependent upon its ability to continue providing services in a wide variety of programmatic areas to meet the needs of our members. The leveraging of members' assessments is key the financial success of the Commission. The Commission generated more than \$19 for every one dollar in assessments collected. Without this advantage the Commission could not succeed in providing the level of services demanded by its members.

Due to the nature of the Commission's major activities, a major portion of the Commission's State and Federal funding is driven by the economic condition and success of its member governments and the populace. Therefore, the financial condition of the Commission and its revenues are also driven by the economic success or failure of the Commission's members and populace.

Due to the swings in availability of State and Federal funding, the Commission strives to maintain a sufficient level of liquid net assets to meet its obligations as they become due. The Commission must also maintain a high level of liquid assets due to its dependency on State and Federal grants and contracts. Most all of these grants and contracts operate on

a reimbursable basis with an average collection period of forty-five to sixty days. The Commission is not empowered to borrow funds.

With 5,146 square miles of land area in its jurisdiction, the Commission has a diverse group of constituents. The area consists of both urban and rural counties with the city of Augusta and Richmond and Columbia counties being predominantly urban. The fortunes of the Augusta urban area tie closely to the fortunes of both the CSRA rural counties and the urban area in South Carolina. According to U.S. Census estimates, the CSRA had a population of 435,345. Approximately 306,472 persons or 70.40% resided in the urbanized areas within Richmond and Columbia Counties. Most of the region's growth has occurred in and around the Augusta metropolitan area.

With a projected 9% population growth to 502,290 residents, the Augusta metropolitan statistical area (MSA) ranks at 109 of the top U.S. metro areas in population and is Georgia's second largest in terms of population and jobs. The Augusta metropolitan area serves as the economic Commission of the CSRA. The Augusta MSA has a strong, stable economy, composed of: (1) an extensive base of manufacturers; (2) a core of technology-based employers; and (3) an expanding service sector. The diverse industrial base includes production of medical products, pharmaceuticals, golf carts, chemicals, industrial tools, and services centers among others.

MAJOR INITIATIVES OF THE COMMISSION

- Local Government Services (LGS) staff administered two federal Brownfield Grants totaling \$600,000 for community-wide assessments for petroleum for the Cities of Wadley and Millen.
- > The Community Care Services Program served 987 clients in the community instead of a nursing facility, saving over \$12 million Medicaid dollars.
- ➤ The Planning Department initiated the process of preparing *Urban Redevelopment Plans for the Cities of Grovetown and Harlem.* When complete, the plans will provide recommendations and guide local officials in their efforts to revitalize each city's downtown.
- ➤ The Area Agency on Aging Nutrition Services Program worked side by side with 21 region wide sites to provide 230,691 congregate and home delivered meals to seniors in the east central Georgia region at a net cost of \$909,084
- ➤ Economic Development staff provided project consultation, grant writing assistance, and administration of state and federal funding to local governments, resulting in more than \$2.8 million in economic development grant funds for member jurisdictions creating and/or retaining more than 900 jobs.
- ➤ LGS staff applied for and/or received over \$12.2 million of state and federal grants for infrastructure, Brownfields, housing assessment planning, hazard mitigation planning, and historic preservation projects. In addition, the Local Government Services Department administered over \$21.8 million in grant funds.
- ➤ The Coordinated Transportation Program serviced approximately 796 unduplicated consumers for a total of 147,858 one-way trips.
- CSRA Business Lending packaged and had approved 56 business loans totaling \$30,150,853 representing total project costs of \$83,325,562, and creating or retaining 427 jobs.

While the nation as a whole continues to experience economic turmoil the urban areas of the CSRA are faring better. However, the rural areas of the CSRA continue to face unprecedented unemployment rates as local businesses continue to struggle. Meanwhile, many of these same communities, working with state partners, developed Community of Opportunity plans and became certified as Work Ready communities. The loss of employers has left the region with an ample supply of qualified, capable, and ready employees. Through local planning and development efforts, the CSRA's communities are prepared to move forward as economic recovery begins. Helping our communities capitalize on anticipated future economic growth is a primary focus. Staff members provide a wide variety of services to our members in all areas of local governance. It is the intermingling of these services that fosters not only the quality of life within the region, but also the opportunities for local and regional economic growth and success.

The Commission publishes a detailed report of all activities annually. This year's Annual Report theme is "Keeping the Pace" Copies of that report can be obtained directly from the Commission or by accessing on the Commission's web site www.csrarc.ga.gov.

AWARDS AND ACKNOWLEGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Commission for its comprehensive annual financial report for the year ended June 30, 2009. The Certificate of Achievement is a prestigious national award-recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the Commission published an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. The Commission has received a Certificate of Achievement for the past seventeen years. We believe that our report continues to conform to the Certificate of Achievement program's requirements, and therefore, we are submitting it to GFOA.

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the finance and administration department. The Executive Director and the Board of Directors are also commended for their interest and support in planning and conducting the financial operations of the Commission in a responsible and progressive manner.

Respectfully Submitted,

Andy Crosson Executive Director L. Mack Shealy, CPA, CGFM Chief Financial Officer

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Council Members Central Savannah River Area Regional Commission Augusta, Georgia

We have audited the accompanying financial statements of the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **Central Savannah River Area Regional Commission** (the "Commission"), as of and for the year ended June 30, 2010, which collectively comprise the Commission's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Commission's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Central Savannah River Area Regional Commission as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2010, on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (on pages 11 - 20) is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Central Savannah River Area Regional Commission's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, supplementary schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Central Savannah River Area Regional Commission. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules, supplementary schedules, and schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly presented in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Mauldin & Jenkins, LLC

Macon, Georgia November 17, 2010

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Central Savannah River Area Regional Commission (Commission), we offer readers of the Commission's financial statements this narrative overview and analysis of the financial activities of the Commission for the fiscal year (FY) ended June 30, 2010. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Commission's financial statements, which follow this narrative.

FINANCIAL HIGHLIGHTS PRIMARY GOVERNMENT

- The assets of the Commission exceeded its liabilities at the close of the fiscal year by \$2,377,928 (net assets). Of this amount, \$2,273,584 (unrestricted net assets) may be used to meet the Commission's ongoing obligations.
- Net assets increased by \$104,925. Total governmental and business activities expenditures exceeded program revenues by \$333,376. Member assessments covered this deficit. The remaining member assets of \$101,878 (\$435,254 \$333,376) plus the interest income of \$3,407 represents the \$104,925 net change in assets. This analysis s in accordance with the Commission's policy to first apply cost-reimbursement grant resources, followed by local grants or contracts, and then by general revenues.
- As of the close of the current fiscal year, the Commission's governmental funds reported combined ending fund balances of \$1,739,765 an increase of \$123,672 from the prior year. This entire amount is *unreserved* and may be used to meet the Commission's ongoing obligations.

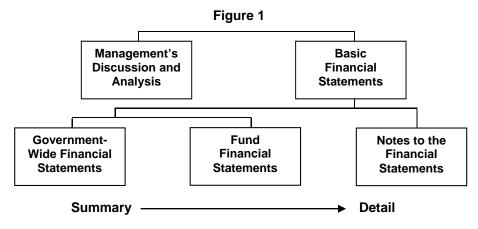

FINANCIAL HIGHLIGHTS COMPONENT UNITS (CUs)

- The assets of the CUs exceeded their liabilities at the close of the fiscal year by \$4,032,914 (net assets). Of this amount, \$4,030,486 (unrestricted net assets) may be used to meet ongoing obligations.
- The CUs total net assets increased by \$420,067, an increase of \$171,920 over the prior year's change in net assets. The increase directly related to changes made by the American Recovery and Reinvestment Act of 2009 (ARRA) on how processing fees are paid.
- Operating revenues increased \$278,701 and operating expenses increased \$106,570. The CUs long-term debt decreased \$183,450 due to continuing annual note payments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Commission's basic financial statements. The Commission's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Commission with government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Commission. See figure 1 on the next page.

Required Components of Annual Financial Report

BASIC FINANCIAL STATEMENTS

The first two statements (pages 22 through 24) in the basic financial statements are the Government-wide Financial Statements (GWFS). They provide both short and long-term information about the Commission's financial status. The GWFS include not only the Commission itself, but also its Component Units (CUs). These CUs, even though they are legally separate, are included in the basic financial statements because the Commission is financially accountable and appoints their governing board. The next statements (pages 25 through 33) are Fund Financial Statements. These statements focus on the activities of the individual parts of the Commission's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the proprietary fund statements; 3) the fiduciary fund statements; and 4) the combining statements for the discretely presented CUs.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the Commission's operations, programs, and activities.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide the reader with a broad overview of the Commission's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the Commission's financial status as a whole.

The two government-wide statements present the Commission's net assets and explain how they have changed. Net assets are the difference between the Commission's total assets and total liabilities. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The government-wide statements are divided into two categories: 1) governmental activities and 2) business-type activities. The governmental activities include most of the Commission's basic services such as aging services, regional transportation services, planning & zoning, services to member governments, and support. Member assessments and Federal, State, and contracts from other governments finance these activities. The business-type activities are those for which the Commission charges a fee to customers. These are a micro loan program and assistance with mapping and geographic information systems (GIS) services.

FUND FINANCIAL STATEMENTS

The fund financial statements provide a more detailed look at the Commission's activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like all other governmental entities in Georgia, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements. All of the funds of the Commission can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Commission's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash and the amount of funds left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called modified accrual accounting. This method also has a current financial resources focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are financial resources available to finance the Commission's programs. The relationship between government activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

An internal operating budget for the general, grants and contracts, indirect cost, and GIS and mapping funds is prepared by the Commission for management purposes. The budget is not subject to review or approval by the Legislature of the State of Georgia and, therefore, is not considered a legally adopted budget.

Proprietary Funds –The Commission maintains two different types of proprietary funds. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Commission uses enterprise funds to account for the operation of its micro loan program and assistance to member governments and internal departments in the area of mapping data and related information. *Internal service funds* are an accounting device used to accumulate and allocate cost internally among the Commission's various grants and contracts. The Commission uses an internal service fund to account for indirect costs, payroll and fringe benefit payments and their allocation, and the receipt and disbursement of all the Commission's funds. Because these services predominantly benefit governmental rather than business-type functions, the Internal Service Fund is reported with governmental activities in the government-wide financial statements.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the Commission. The Commission has two fiduciary funds: one pension trust fund and one agency fund.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 34 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Commission's programs, activities, and operations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In this case, the Commission's assets exceed liabilities by \$2,377,928 at the close of June 30, 2010, an increase over the prior year.

Net assets:			•									
Invested in capital assets	99,862	123,531	(23,669)		4,482		5,401		(919)	104,344		128,932
Unrestricted	1,884,399	1,737,229	147,170		389,185		406,842		(17,657)	2,273,584		2,144,071
Total net assets	\$ 1,984,261	\$ 1,860,760	\$ 123,501	\$	393,667	\$	412,243	\$	(18,576)	\$ 2,377,928	\$	2,273,003

A small portion of the of net assets, \$104,344 (4.39%), reflects the Commission's investment in capital assets (e.g. vehicles, office furniture and equipment). The Commission uses these capital assets to support staff. These assets are not available for future spending. The remaining portion of the Commission's net assets, \$2,273,584 is used to meet the Commission's ongoing obligations to members and creditors.

The Commission finances ninety-seven (97%) of its services through intergovernmental grants and contracts and, as a result, growth in net assets is limited. The majority of these grants and contracts operate on a reimbursable basis (revenues are limited to the actual costs incurred). Receivables, loans receivable, amounts due from component units, and prepaid items represent fifty-one point eighty-four percent (51.84%) or \$2,018,659 of the Commission's current assets. The average collection period ranges from forty-five to sixty days, requiring the Commission to maintain sufficient levels of cash to support current obligations. The Commission does not possess the corporate power to borrow therefore, it must maintain a sufficient level of net assets to sustain and support continued growth in services to members.

year	1,860,760	1,749,820	110,940	412,243	422,626	(10,383)	2,273,003	2,172,446
Net assets end of year	\$ 1,984,261	\$ 1,860,760	\$ 123,501	\$ 393,667	\$ 412,243	\$ (18,576)	\$ 2,377,928	\$ 2,273,003

Governmental activities increased the Commission's net assets by \$130,415 while business activities used \$25,490 resulting in a net total growth in net assets of the \$104,925. In accordance with the Commission's policy to first apply cost-reimbursement grant resources, followed by local grants or contracts, and then by general revenues this increase represents remaining member assessments and interest income not applied to current operations.

The Commission's \$130,415 increase in governmental activities for FY10 is a \$1,071 decrease from FY09. Except for the coordinated regional transportation, contracts for the preparation of hazard mitigation plans, and preparation of block grant applications, all of the Commission's Federal and State grants/contracts are reimbursement based; meaning revenues are limited to expenses. Continued growth and stability in net assets is dependent upon the successful management of grants/contracts.

Governmental revenues for FY10 decreased \$50,492 compared to an increase of \$33,877 for FY09. Charges for services increased while there was decrease in operating grants. Operating grants for aging services decreased \$326,082, which is consistent with the decrease in aging services

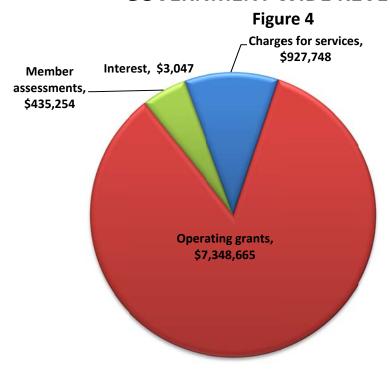

expenditures. Operating grants for transportation, planning, local government services, and economic development support taken together increased \$128,072.

Governmental expenses for FY10 decreased \$49,421. Changes in functional expenses mirror changes in the composition of grants and service contracts, except for general government. The increase for general government is directly related to 1) \$59,500 payment for consultant services related to a regional grant application, 2) \$44,820 increase in personnel and indirect cost allocations related to regional grant application, and 3) \$20,385 decrease in errors and omissions. The decrease in transfers is consistent with a decrease in expenditures for mapping and geographic information (GIS) services.

Business-type activities decreased the Commission's net assets by \$25,490 compared to a decrease of \$30,929 for FY09. The Herman Lodge Micro Loan Program (MLP) contributed \$18,576 to the \$25,490 decrease while GIS and Mapping Services (GIS) contributed the remaining \$6,914. The Commission is transiting GIS from an internal staff activity to a contractual relationship with an outside entity. As a result, costs directly related to an activity are charged directly to that activity in governmental activities. However, GIS continues to incur cost related to existing software and equipment in support of planning activities but has no way to track and recover costs by activity.

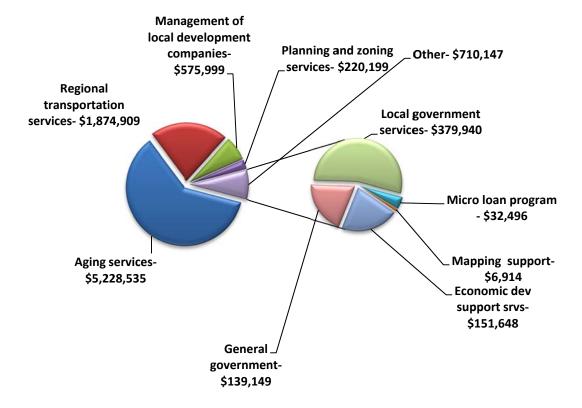

Charges for services in the Herman Lodge Micro Loan program (MLP) increased \$1,772 all attributable to an increase in program interest. The MLP increase in expenses reflects an increase in staff time charged consistent with loan activity.

Net assets beginning of			
year	3,612,847	3,364,700	248,147
Net assets end of year	\$ 4,032,914	\$ 3,612,847	\$ 420,067

The CUs' total net assets increased by \$420,067 an increase of \$171,920 over the prior year's change.

The decrease in interest from program loans consists of two components 1) \$35,319 decrease for the CSRA Local Development Corporation (CSRA LDC) in escrow interest held and 2) \$34,734 decrease in interest from loans for the CSRA Rural Lending Authority, Inc. (CSRA RLA). The decrease for CSRA LDC is related to a decrease in escrow interest held by the 504-servicing agent resulting from prepayments. The decrease in loan interest for the CSRA RLA is related to interest rate reductions and prepayments of higher interest loans. Processing and servicing fees are based on a percentage of the CUs' participation in the Small Business Administration's (SBA) loan amount. The increase directly related to changes made by the American Recovery and Reinvestment Act of 2009 (ARRA) on how processing fees are paid. Two thirds of the processing fee is now paid when an application is processed by the SBA with the remaining one third paid when the loan is closed. Previously the fee was not received until the loan closed. The increase in servicing fees is consistent with annual increases in loans closed. Servicing fees are received over the life of the loan. Therefore, the level of servicing fees has a linear growth over time.

SBA regulations allow the CSRA LDC to operate anywhere in Georgia. The regulations not only allow the CSRA LDC to compete anywhere in Georgia but also allow other certified development companies (CDC) operating in Georgia to compete in the Commission's operating area. Due to a continuing and strong marketing program, the CSRA LDC is making a strong penetration into other areas of Georgia, especially in the metro Atlanta area. The number of loans outside its

original operating area evidences this. SBA approved forty-five (45) loans in FY10, thirty (30) outside the CSRA area. SBA approved twenty-two (22) loans in FY09, eleven (11) outside the CSRA area.

FINANCIAL ANALYSIS OF THE COMMISSION'S FUNDS

As noted earlier, the Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Commission maintains two governmental funds a *general fund* and *grants and contracts fund*. The focus of the Commission's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources.

Due to the nature of the Commission's operations, the only reconciling items between the GWFS Statement of Net assets and the governmental funds balance statement is the net assets (\$244,496) of the internal service fund included as a governmental activity in the GWFS. The only reconciling item between GWFS Statement of Activities and the governmental funds operating statement is depreciation (\$171) related to capital assets purchased by governmental funds recorded in the GWFS. Except for the depreciation related to capital assets purchased by governmental funds, the information in the governmental funds statement is not different from that in the GWFS. Governmental fund balances increased by \$123,672. The Commission operates its grant and contract fund on a breakeven basis transferring funds as needed from the general fund to cover deficits. As a result, the \$123,672 increase in the general fund balances represents member assessments available to fund future operating periods.

The Commission's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Factors concerning the operations of the proprietary funds are addressed in the discussion of the Commission's business-type activities. Because the indirect cost fund is designed to recover costs there was no change in net assets. Total indirect costs increased \$35,536. The change is attributable to significant increases in small equipment purchases of \$25,148 and temporary personnel services of \$10,498. Minor increases in other items accounted for the remaining change.

Net assets held in trust for participants increased \$696,185 from \$3,580,530 to \$4,276,715. Investment income increased from a net loss of \$428,990 in FY09 to a gain of \$497,297 for FY10. The increase is directly attributable to recent improvement in investment markets.

CAPITAL ASSETS

The Commission's capital assets for its governmental and business—type activities as of June 30 are \$104,344 (net of accumulated depreciation). These assets include furniture, fixtures, equipment, vehicles, and leasehold improvements. Capital assets are defined by the Commission as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of one year. Most of the Commission's capital purchases are below this threshold. Therefore, over time the Commission's investment in capital assets will generally decline.

Additional information on the Commission's capital assets can be found in note 1.G and 3.D of the basic financial statements.

ECONOMIC FACTORS AFFECTING THE COMMISSION'S FUTURE

The Commission's financial position is directly affected by the level of State funding and Federal appropriations available for those activities undertaken by the Commission to assist its members. The Commission derived over ninety-seven percent of its income from Federal and State grants. The Commission's continued success is dependent upon its ability to provide services in a wide variety of programmatic areas to meet the needs of its members.

REQUESTS FOR INFORMATION

This report is designed to provide an overview of the Commission's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be addressed to L. Mack Shealy, CPA, CGFM, CFO, at 3023 River Watch Parkway, Suite A, and Augusta, Georgia 30907-2016.

NOTE 1 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Central Savannah River Area Regional Commission ("the Commission") accounts for its financial position and results of operations in accordance with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units. The Commission's reporting entity applies all relevant Government Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements and in the proprietary fund financial statements, the Commission applies Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The following is a summary of the more significant policies.

A. REPORTING ENTITY

The Central Savannah River Area Regional Commission succeeded the former Central Savannah River Area Regional Development Center (Center) effective July 1, 2009. The Official Code of Georgia Annotated (OCGA) Section 50-8-41 provided for this succession. All contractual obligations to employees, other duties, rights, and benefits of the Center automatically became duties, obligations, rights, and benefits of the successor Commission.

The Commission is a special purpose local government existing under the authority of Georgia law as provided for by the OCGA § 50-8-41. The responsibilities and authority of the Commission are contained in Sections 50-8-30 through 50-8-67 of OCGA. The Commission assists local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. Membership assessments, federal, state, local, and private grants/contracts finance operations of the Commission. Grants from federal, state, and other sources are the primary sources of revenues permitting the Commission to meet its responsibilities.

County members of the Commission are Burke, Columbia, Glascock, Hancock, Jefferson, Jenkins, Lincoln, McDuffie, Richmond, Taliaferro, Warren, Washington, and Wilkes Counties. Municipalities members are: Waynesboro, Midvale, Sardis, Girard, Keysville, Grovetown, Harlem, Gibson, Edge hill, Mitchell, Sparta, Louisville, Wrens, Wadley, Stapleton, Bartow, Avira, Millen, Lincolnton, Thomson, Dearing, Hephzibah, Blythe, Crawfordville, Sharon, Warrenton, Norwood, Camas, Devisor, Deepstep, Harrison, Oconee, Riddleville, Sandersville, Tennille, Washington, Tignall, and Rayle. As provided by law these members pay mandatory dues in support of the Commission (see Note 4.A).

The Commission is fiscally independent of other state and local government units and as such is considered a primary government. The Commission's financial statements include the accounts of all the Commission's operations and its component units (CUs), entities for which the Commission is considered to be financially accountable.

CSRA Resource Development Agency, Inc., CSRA Local Development Corporation, Inc., and CSRA Rural Lending Authority, Inc. are included as CUs. The Commission's Council (board of directors) appoints and has the authority to remove at will the directors of each corporation. These separate organizations do meet the financial accountability criteria described in GASB Statement 14 and are included. The nature and significance of the relationship of these separate organizations with the Commission are such that exclusion would cause the Commission's financial statements to be incomplete. The Georgia Attorney General in his Official Opinion 96-8 dated May 9, 1996, stated, "It is my official opinion that an RDC [Center] lacks authority to abrogate its duty to be accountable for the nonprofit corporations it is authorized to create." See Note 2.C.

The CUs are discretely presented, meaning their combined totals are reported in a separate column in the government wide financial statements to emphasize they are legally separate from the Commission. Combining statements are included in the basic financial statements following fund statements. Each CU is operated and administered under a contractual arrangement with the Commission. The president, executive vice president, and assistant secretary of each of the CUs are employees of the Commission and receive no compensation directly from the CUs. The CUs do not issue separate financial statements.

Discretely Presented Component Units

The CSRA Resource Development Agency, Inc. (CSRA RDA) was organized pursuant to the Georgia Nonprofit Corporation Code (GNPCC) on October 24, 1979 and is exempt from income taxes under Internal Revenue Code (IRC) Section 501(c) (3). CSRA RDA's principal objective and purpose is to operate a revolving loan fund. CSRA RDA makes loans to eligible applicants in areas exhibiting long-term economic deterioration. CSRA RDA's initial capitalization was obtained through a grant from the U.S. Department of Commerce, Economic Development Administration.

The CSRA Local Development Corporation Inc., (CSRA LDC) a U.S. Small Business Administration (SBA) Certified Development Company (CDC) was organized pursuant to the GNPCC on February 3, 1981 and is exempt from income taxes under IRC Section 501(c) (3). CSRA LDC's principal purpose is to assist eligible businesses with financing to maintain and/or create jobs. CSRA LDC provides financing assistance by packaging loans through the U.S. Small Business Administration's (SBA) 504 and 7A Guaranteed Loan Programs. CSRA LDC provides loans backed by a 100 percent SBA-guaranteed debenture with a junior lien covering up to 40 percent of the total project cost. See Note 3.H.

The CSRA Rural Lending Authority, Inc. (CSRA RLA) was organized pursuant to the GNPCC on December 11, 1990 and is exempt from income taxes under IRC Section 501(c) (3). CSRA RLA's purpose is to operate an intermediary relending program (revolving loan program) and to make loans to eligible applicants in rural areas. CSRA RLA is capitalized with low interest loans from the Farmers Home Administration (FHA) Intermediary Relending Program.

B. BASIS OF PRESENTATION

Government-wide statements: The statement of net assets and the statement of activities display information about the primary government. These statements include the financial activities of the overall government. These statements distinguish between governmental and business-type activities of the Commission. Governmental activities are financed through member assessments, intergovernmental revenues (grants and contracts), and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Commission and for each function of the Commission's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are

not classified as program revenues, member assessments and interest, are presented as general revenues.

The effect of interfund activity has been eliminated from the government-wide financial statements.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Fund financial statements: The fund financial statements provide information about the Commission's funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds. In addition to the general fund the Commission has only one other governmental fund.

Proprietary fund operation revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The Commission reports the following major governmental funds:

The General Fund is used to account for all non-specific financial resources and those not accounted for in other funds. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Georgia.

The Grants and Contracts Fund is used to account for all the Commission's grants and contracts undertaken to carry out the functional responsibilities of the Commission. Within this fund the Commission maintains records on a functional level.

The Commission reports the following major proprietary funds.

Herman Lodge Micro Loan Program is an enterprise fund used to account for revenues and expenses resulting from the operation of a micro revolving loan fund created by the Commission as a result of a Rural Enterprise Grant from USDA Rural Economic and Community Development.

The Geographic Information Systems (GIS) / Mapping Fund is an enterprise fund used to account for special assistance provided to member governments and internal departments in the area of mapping data and related information. The Commission is anticipating closing this fund.

Additionally, the Commission reports the following funds:

The Indirect Cost Fund (ICF) is an internal service fund used to account for indirect costs, payroll and fringe benefit payments and their allocation, and the receipt and disbursement of all the Commission's funds. Because these services predominantly benefit governmental rather than business-type functions, the Indirect Cost Fund is reported with governmental activities in the government-wide financial statements.

The Pension Trust Fund is a fiduciary fund used to account for the resources held for the benefit of participants in the Commission's money purchase pension plan.

Agency funds are custodial in nature and do not involve the measurement of operating results. The Commission uses an agency fund to account for assets it holds on behalf of others. The Flexible Compensation Plan Fund accounts for the funds withheld from employees' pay for the purposes of reimbursing them for uninsured medical costs and dependent care costs.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Government-wide, Proprietary and Fiduciary Fund Financial Statements – The government-wide, proprietary fund and fiduciary financial statements are reported using the economic resources measurement focus, except for agency funds which have no measurement focus. The government-wide, proprietary fund and fiduciary financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include member assessments and donations. On an accrual basis, revenue from member assessments is recognized at July 1 of each fiscal year. Revenue from grants and reimbursable contracts is recognized when program expenditures are incurred in accordance with program guidelines.

Amounts reported as program revenues include charges for services provided and intergovernmental grants and contracts. General revenues include member assessments and interest income.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Commission's enterprise funds are charges to customers for sales and services and interest earned on program loans, as distinguished from interest earned on funds on deposit. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period. The Commission considers all revenues available if they are collected within 150 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues of the Commission's governmental funds susceptible to accrual are member assessments, interest, and the earned portion of grant and contracts. Grant and contract revenues are recognized when program expenditures are incurred in accordance with program guidelines. Such revenues are subject to review by the funding agency and may result in disallowance in subsequent periods. Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. It is the Commission's policy to first apply cost-reimbursement grant resources, followed by local grants or contracts, and then by general revenues.

D. CASH AND CASH EQUIVALENTS

The Commission's Cash and Cash Equivalents are considered to be cash on hand, demand deposits with banks and other financial institutions, and the State investment pool that has the general characteristics of demand deposit accounts in that the Commission may deposit additional cash at any time and also may withdraw cash at any time without prior notice or penalty. See Note 3.A.

E. INVESTMENTS

The Commission is authorized to invest in obligations of the United States, bonds or certificates of indebtedness of the State of Georgia, repurchase agreements where the underlying security is one of the foregoing, certificates of deposit and the State of Georgia's Georgia Fund 1 (GA1), a stable net asset value investment pool. The pension trust fund is authorized to invest in securities consistent with the Employee Retirement Income Security Act of 1974 (ERISA) prudency and diversity of risk standards.

The Pension Trust's investment in mutual funds involves the Commission indirectly in derivatives. However, information relating to the nature and purpose of the derivative transactions or the Commission's exposure to credit risk, market risk, and legal risk is not available.

Investments are reported at fair value. Fair value is determined as follows: short-term investments are reported at cost, which approximates fair value; securities traded on national exchanges are valued at current prices or current prices of similar securities; securities for which an established market does not exist are reported at estimated fair value using selling prices for similar investments for which there is an active market. Georgia's Office of Treasury and Fiscal Services (OTFS) operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. See Note 3.A.

F. INVENTORIES AND PREPAID ITEMS

Even though the Commission has some expendable supplies (e.g., office and computer supplies) on hand at June 30, the quantities and dollar values were not material. Accordingly, none are shown on the statement of net assets at that date. The cost of supplies is recorded as expenditure at the time that the individual items are purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

G. CAPITAL ASSETS

Capital assets are defined by the Commission as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of one year. Purchased capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. Capital assets of the Commission consist of vehicles, furniture, fixtures, and equipment. The Commission has no public domain or infrastructure capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Depreciation is computed using the straight-line method. A summary of the estimated useful lives is as follows:

Vehicles4 - 5 yearsOffice Equipment5 - 10 yearsComputer equipment3 - 7 yearsLeasehold improvements10 years

H. COMPENSATED ABSENCES

Effective July 1, 2002 the Commission adopted new leave policies. Paid Time Off (PTO) was created to replace both vacation and sick leave. The new policy allowed existing employees to retain their unused sick leave at June 30, 2002 and use as needed until exhausted. The paid time off policy of the Commission provides for the accumulation of up to four hundred hours of PTO at December 31. Hours accumulate at the rate of twelve to nineteen hours per month, depending upon the years of service. The employee's right to receive compensation for PTO vests as earned and is used through paid time off or cash payment at termination or retirement. For the Commission's government-wide financial statements and proprietary fund financial statements, an expense and a liability for compensated absences and the salary-related payments are recorded as PTO is earned. The Commission has assumed a first-in, first-out method of using accumulated compensated time. The portion of that time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements.

No accrual has been established for accumulated sick leave of employees since it is the Commission's policy to record the cost of sick leave only when it is used. However, at June 30 the value of unused sick leave was \$98,958.

I. LONG TERM OBLIGATIONS

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt is reported as a liability in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

J. FUND EQUITY

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for spending or are legally restricted by outside parties for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

K. DIRECT COSTS AND ALLOCATION OF INDIRECT COSTS AND EMPLOYEE BENEFITS

The ICF is used to account for all administrative activities of the Commission, including the indirect cost pool, payroll and fringe benefit payments and allocations, and the receipt and disbursement of all the Commission's funds. The expenses of the fund are reflected net of the reimbursements.

Costs that can be identified specifically with a particular grant, contract, or project are considered direct costs and are charged directly to the applicable grant, contract, or project. Costs that are incurred for a common or joint purpose benefiting more than one program or activity are considered indirect costs.

Indirect costs are recorded in the ICF and allocated to all grants, contracts, and projects in accordance with Office of Management and Budget (OMB) Circular A-87. Recoveries of these costs are recorded as operating revenues in the ICF and as expenditures or expenses in the paying fund. Costs not considered allowable under the Commission's cost allocation plan are

excluded from the cost allocation process and create an operating deficit in the fund. When this occurs funds are transferred from the General Fund to the ICF to cover the deficit created as the intent is for the fund to operate on a break even basis.

The Commission's indirect costs are allocated monthly to grants, contracts, and projects using direct chargeable salaries as the allocation base. Total indirect costs incurred by the Commission for the year were \$999,877. The allocation base of direct chargeable salaries was \$1,433,397; the effective indirect cost rate was 69.76%.

The Commission's employee benefits are also allocated monthly to grants, contracts, and projects as a percentage of salaries. The Commission incurred total fringe benefits \$795,490 for the year. The allocation base of direct salaries was \$1,824,160; the effective fringe benefit rate was 43.61%.

The Commission maintains a cost allocation plan in support of its fringe benefit and indirect cost allocation methodologies.

L. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amount of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

An internal operating budget for the general fund, special revenue fund, internal service fund, and GIS enterprise fund is prepared by the Commission for management purposes. The budget is not subject to review or approval by the Legislature of the State of Georgia and, therefore, is a nonappropriated budget.

B. BOUNDARY OF OPERATIONS

The Official Code of Georgia (O.C.G.A.) § 50-8-32 provides that the Commission's jurisdiction and authority is limited to defined regional boundaries as specified by O.C.G.A. § 50-8-4 and as denoted as Region 7.

However, the Georgia Department of Human Services (DHS), Division of Aging Services continues to recognize Screven County as being in the program service area of the Commission. Therefore, the Commission is required by the terms of its agreements with DHS to continue operating its Aging and Transportation programs in Screven County. O.C.G.A. § 50-8-35 (a)(2) provides that a commission may contract with any state agency for coordinated and comprehensive planning covering areas not within the territorial boundaries with approval of that contract by the regional commission's council.

C. COMPLIANCE

CSRA Local Development Corporation (CSRA) received a letter from the US Small Business Administration (SBA) on August 7, 2007, stating "we have determined that CSRA is in violation of SBA's federal regulations that require a Certified Development Company (CDC) to be independent and not controlled by another agency."

Based on the same criteria discussed in 1.A above SBA has determined that CSRA CDC is an affiliate and controlled by the Commission which violates SBA regulations. SBA requires that CDC's be autonomous entities and not controlled or affiliated with another entity. SBA has established specific guidelines of how the membership and board is to be governed to insure public accountability to the small business community as outlined in 13CFR120.823. CSRA violates this because the Commission appoints its members and has the ability to remove them at will as stated in its bylaws. SBA regulations and policies require that CSRA be independent and not controlled by other entities, as SBA only regulates the CDC and not the Commission. 13CFR120.822 states, "No person or entity can own or control more than 10% of the CDC's voting stock."

SBA will not at the present time take any action to decertify CSRA, but reserves the right to do so in the future if the control issue is not resolved soon. The CSRA continues to work with SBA officials to address these issues, but no legislation or rule changes have yet occurred.

If CSRA Local Development Corporation was excluded as a component unit of the Commission, it could result in adverse consequences against the Commission by the State of Georgia.

NOTE 3 – DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

At June 30, the Commission's cash and cash equivalents balance on the balance sheet included demand deposits and its investment in Georgia Fund 1. At June 30, the cash and investments included the following:

Ownership of Funds	
Primary Government - Commission	
Internal Service Fund	
Petty cash/ cash on hand	\$ 50
Demand deposits	1,072,121
Investments	761,782

NA = Not applicable to this item.			+ 1,202,400

Interest rate risk. The Commission does not have an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The Commission does not have a formal investment policy that limits investments to only those rated by a nationally recognized statistical rating organization (NRSROs) nor to a specific level of rating issues by NRSROs.

Concentration of Credit Risk. Concentration risk is defined as positions of five percent or more in the securities of a single issuer. The Commission has no investment policy protecting from concentration risk.

Custodian credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Commission's deposits or its CUs' deposits may not be returned to it. Neither the government nor its CUs has a deposit policy for custodian risk. However, both the Commission and its CUs follow state law requiring pledges of collateral from depository institutions.

The Dodd-Franklin Wall Street Reform and Consumer Protection Act raised the standard maximum deposit insurance amount to \$250,000 per depositor, per insured depository institution for each account ownership category.

As of June 30, the carrying amount of the Commission's deposits with financial institutions was \$1,072,121 and the bank balance was \$1,072,001. Of the bank balance, \$250,000 was covered by Federal depository insurance and \$822,001 collateralized by securities in a Federal Reserve pledge account. Therefore, the Commission's deposits are not subject to custodial credit risk.

As of June 30, the carrying amount of the CUs' deposits with financial institutions was \$2,915,540 and the bank balance was \$2,925,085. Of the bank balance, \$695,338 was covered by Federal depository insurance and \$2,229,747 was collateralized by a group of securities pledged by a group of financial institutions for the purpose of providing common collateral for their deposits of public funds. The pool has the ability to make additional assessments. Therefore, the CUs' deposits are not subject to custodial credit risk.

B. ACCOUNTS RECEIVABLE AND UNEARNED REVENUES

C. LOANS RECEIVABLE

Herman Lodge Micro Loan Program

The Commission makes loans to eligible small businesses through its Micro Loan Program (MLP) Fund. The MLP has a loan portfolio of seven notes with maturities ranging from five to thirteen years and interest rates ranging from 2.00% to 8% with an average rate of 6.50%.

At June 30, the MLP was committed to loan \$50,000.

Component Units:

Loans are made to eligible small businesses through the Commission's Revolving Loan Programs operated by the CSRA Resource Development Agency, Inc., the CSRA Local Development Corp. Inc., and the CSRA Rural Lending Authority, Inc.

The CSRA Resource Development Agency, Inc. has a loan portfolio of twenty-three notes with maturities ranging from five to fifteen years and interest rates ranging from 0.00% to 9.25% with an average rate of 7.00%.

At June 30, CSRA Resource Development Agency, Inc. was committed to loan \$75,000.

The CSRA Rural Lending Authority, Inc. has a loan portfolio of forty-three notes with maturities ranging from five to ten years and interest rates ranging from 4.00% to 9.25% with an average rate of 7.03%. All of these loans are assigned with recourse to the U. S. Department of Agriculture – Rural Development as collateral for the CSRA Rural Lending Authority, Inc. notes payable.

At June 30, CSRA Rural Lending Authority, Inc. was committed to loan \$300,000.

Allowance for Doubtful Accounts - The provision for doubtful accounts is considered adequate to provide for potential losses in the portfolio. Management's evaluation of the adequacy of the allowance is based on a review of individual loans, recent loss exposure, current economic conditions, risk characteristics of the borrowers, value of underlying collateral, and other factors. Management believes the allowances are adequate.

Component Units:							
Business Activities:							
Capital assets, being depreciated:							
Property & equipment	\$ 25,56	7 \$	-	\$	(6,187)	\$	19,380
Total accumulated depreciation	(21,96	7)	(1,172)		6,187		(16,952)
Total capital assets net, Component Units	\$ 3,60) \$	(1,172)	\$	-	\$	2,428

Depreciation expense is charged to functions as follows:

		RIMARY ERNMEN	 IPONENT JNITS
Governmental activities:	· ·		_
General government	\$	40,225	
Aging services		171	
Total depreciation - governmental activities	\$	40,396	
Business activities:			
Mapping & geographic information systems support	\$	919	
Business lending services			 1,172
Total depreciation - business activities	\$	919	\$ 1,172

Included in the \$40,396 general government depreciation is \$40,224 of depreciation, which is allocated to all functions through the Commission's indirect cost allocation.

E. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, is as follows:

	INTERFUND					
	RECEIVABLES	PAYABLES				
PRIMARY GOVERNMENT:						
General Fund:						
Due from grants and contracts fund	\$ 2,403,64	I \$ -				
Due from indirect cost fund	402,838	-				
Due to GIS & mapping		- 48,324				
Due to grants and contracts fund		- 856,727				
Due to Herman Lodge MLP		197,997				
Total General Fund	2,806,479	91,103,048				
Grants and Contracts Fund:						
Due from general fund	856,727	-				
Due to general fund		2,403,641				
Total Grants and Contracts Fund	856,72	2,403,641				
Enterprise Fund:						
Due from general fund - Herman Lodge MLP	197,997	-				
Due from general fund - GIS & mapping	48,324	<u> </u>				
Total Enterprise Fund	246,32	<u> </u>				
Indirect Cost Fund:						
Due to general fund		402,838				
Total Indirect Cost Fund		402,838				
Total Primary Government	\$ 3,909,527	\$ 3,909,527				

The outstanding balances between funds result from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the fund financial statements and as "internal balances" on the statement of net assets in the government-wide financial statements.

Interfund transfers:

		Transfer In:										
			(Grants &								
		Contracts					Indirect Cost					
Transfer Out:	Gen	eral Fund		Fund	GIS 8	& Mapping		Fund		Total		
General fund	\$	-	\$	212,816	\$	6,914	\$	-	\$	219,730		
Grants & contracts fund		42,605		42		-		-		42,647		
Indirect cost fund		4,144		-		-		-		4,144		
Total Transfers	\$	46,749	\$	212,858	\$	6,914	\$	-	\$	266,521		

Transfers are used to 1) move unrestricted general funds to subsidize various activities whose operating cost exceeds revenues or as matching funds for various grant programs, 2) move the excess revenues from a fixed fee activity to the general fund, and 3) move interest earned in the indirect cost fund to the general fund. Local matching funds are shown as transfers from the general fund to the special revenue fund. Transfers are also made for deficits resulting in a reimbursable grant or contract and for an excess or deficit in a fixed fee

contract.

F. OPERATING LEASES

The Commission has entered into certain agreements to lease real property and equipment that are classified as operating leases. These leases generally contain provisions that, at the expiration of the original term of the lease, the Commission has the option of renewing the lease.

The Commission occupies it administrative offices under an operating lease at an annual rate of \$8.71 per square foot, which is subject to annual increases not to exceed 3%. The Commission is also required to pay a common area maintenance fee of \$.90 per square foot. The lease was amended September 22, 2007 changing the initial expiration date from December 31, 2010 to June 30, 2017, increasing the leased space from 8,625 square feet to 11,500 square feet. The lease is renewable annually.

The future minimum commitments for operating leases as of June 30 are:

FY ENDING

JUNE 30,	Re	al Estate	Eq	uipment
2014		400.405		04 000
2011		100,165		21,028
2012		101,667		21,028
2013		103,192		21,028
2014		104,740		21,028
2015		106,311		5,257
2016-2017		217,431		
	\$	733,506	\$	89,369

The Commission's expenses for property and equipment leases for the fiscal year are:

Real estate	\$ 99,234
Common area mainteance	19,207
Equipment	 19,719
Total	\$ 138,161

G. LONG-TERM OBLIGATIONS

Component Units – Notes Payable:

Note 1: The Central Savannah River Area Rural Lending Authority, Inc. (CSRA RLA) borrowed \$1,000,000 from the U. S. Department of Agriculture, Rural Development (USDA RD) under a loan agreement dated October 30, 1991. Interest accrues at the rate of one percent (1%) per annum with payments of \$39,900 beginning January 1, 1994 and continuing until October 31, 2021.

Note 2: CSRA RLA executed a second loan agreement on July 26, 1994 with USDA RD to borrow an additional \$1,000,000. Interest accrues at the rate of one percent (1%) per annum with payments of \$39,900 beginning January 1, 1996 and continuing until July 26, 2024.

Note 3: The CSRA RLA executed an assumption agreement on July 31, 1998 with Georgia

Department of Community Affairs f/k/a GHFA Economic Financing Inc. (DCA) and USDA RD conferring to the CSRA RLA the rights and obligations under the note dated May 26, 1994. The principal balance of the note on July 31, 1998 was \$1,918,935 and at that time, \$1,487,500 of the principal remained to draw. Interest accrues at the rate of one percent (1%) per annum with payments of \$84,900 beginning January 1, 2002 and continuing until May 26, 2024. Prior to the assumption DCA received \$512,500 of the loan committed and repaid \$81,065. See Premium on Loan following.

Note 4: CSRA RLA executed a fourth agreement on December 13, 1999 with USDA RD to borrow an additional \$500,000. Interest accrues at the rate of one percent (1%) per annum with payments of \$21,225 beginning January 1, 2004 and continuing until December 31, 2029.

Note 5: CSRA RLA executed a fifth agreement on June 26, 2001 with USDA RD to borrow an additional \$750,000. Interest only was due on the note for the first three years. Interest accrues at the rate of one percent (1%) per annum with payments of \$31,834 beginning June 26, 2005 and continuing until June 26, 2031.

Funds from all five loans capitalized the Intermediary Relending Program (IRP) to provide a revolving loan fund for qualified borrowers. The CSRA RLA, Inc. has pledged as collateral the balance of all loans receivable resulting from the re-lending of the proceeds of these notes and all other real and personal property of the CSRA RLA, Inc.

Premium on Loan (Note 3): As part of the assumption agreement, CSRA RLA assumed three loans made by DCA from the \$512,500 proceeds. The transaction resulted in the CSRA RLA paying a \$73,890 premium for the right to assume the loan from DCA. This premium is being amortized over the term of the note.

Value of loans receivable from DCA 7/31/98	\$ 357,545
Loan proceeds remaining to draw 7/31/98	1,487,500
Value of assets assumed 7/31/98	1,845,045
Note payable obligation assumed from DCA	(1,918,935)
Premium on loan assumed	73,890
Accumulated amortization	34,102
Carrying value at year end	\$ 39,788

H. ACCOUNTING TREATMENT FOR 504 LOANS AND DEBENTURES

Small Business Administration notice No. 5000-207, effective May 17, 1988, clarified SBA's policy with respect to the accounting treatment CDCs should follow for 504 loans and debentures. There had been debate as to whether CDCs were required to follow a proposed regulation, Section 108.503-(4)(e), which was published in the Federal Register on July 5, 1984. This regulation would have required CDCs to record the 504 loan as an asset and the debenture as a liability. The notice above stated precisely that the SBA does not require CDCs to record 504 loans on their books of account as assets and the debentures as liabilities. In addition, the SBA recommended CDCs follow generally accepted accounting principles. Therefore, 504 loans and debentures are not presented in the financial statements of the CSRA LDC. As of June 30 the balance of 504 loans outstanding is \$73,896,359.06.

NOTE 4 - OTHER INFORMATION

A. - MEMBER ASSESSMENTS

The Commission records assessments from member counties and municipalities within the Commission's geographic region as general revenue in the general fund. Georgia law and the Commission's by-laws stipulate a mandatory annual local funding formula. Georgia law requires all local governments to be a member of a regional development Commission and to pay a minimum dues amount of \$.25 per capita. The Commission's by-laws require each member municipality and county pay dues for membership based on the population within its political boundaries at the rate of one (1) dollar (\$1.00) per capita based upon the most recent estimate of population approved by the Georgia Department of Community Affairs. The population amount for each member is based on the 2000 census data.

During the twelve months ended June 30 the Commission collected \$415,382 dues from member counties and municipalities. Total dues assessed were \$435,254, \$21,960 was prepaid

as of July 1, and \$2,088 was prepaid as of June 30.

B. - RISK MANAGEMENT

The Commission manages its risk from losses arising from physical damage to its assets purchased through state and federal grants, as well as claims and judgments, which may arise from employees or others (including worker's compensation claims) through the purchase of commercial insurance. During the year ended June 30 there were no appreciable reductions in amounts or nature of coverage. In addition, there have been no losses, claims or judgments in excess of insurance coverage during the three-year period ended June 30. The Commission has no unsettled claims or judgments either from the current or prior fiscal years.

C. - CONTINGENT LIABILITIES

Possible unasserted claims:

Use of federal, state and locally administered federal and other grant funds is subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. To the extent that such disallowances involve expenditures under subcontracted arrangements, the Commission generally has the right of recovery from such third parties. All of these third parties are either state or local government entities or non-profit sub recipients covered by the audit provisions of U. S. Office of Management and Budget (1997) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. The Circular requires sub recipients to have made periodic independent audits of their operations. Circular A-133 requires the Commission to obtain copies of such audits and permits the Commission to rely on such audits, if they meet the requirements of the Circular. Many audits for or including the year ended June 30 have not yet been performed. Accordingly, the Commission's compliance with this requirement will be established at some future date. The amount, if any, of sub recipient expenditures which may be disallowed by the Commission after reviewing these audits cannot be determined at this time although the Commission expects such amounts, if any, to be immaterial. Based upon prior experience and audit results, management believes that the Commission will not incur significant losses on possible grant disallowances.

NOTE 5 - CENTRAL SAVANNAH RIVER AREA REGIONAL COMMISSION MONEY PURCHASE PENSION PLAN (the Plan)

The Commission's Council is the authority under which the Plan was established. All authority to make changes to the Plan documents, trustees, investment advisors, or change the rate of contributions is vested in the Commission's Council. Substantially all employees are covered by the Commission's single employer Plan, which is a defined contribution plan. All employees who have attained the age of twenty-one and completed one year of service are eligible to participate in the Plan. The Commission's contribution for each employee and earnings thereon are partially vested after three years of continuous service and fully vested after six years of continuous service. The Commission's contribution for, and interest forfeited by, employees who leave employment before becoming fully vested are allocated among eligible participants. The Commission is obligated to contribute 18% of each eligible employee's annual compensation and employees cannot make voluntary contributions. The Plan is qualified under Section 401(a) of the Internal Revenue Code and the Trust created by the Plan is exempt from tax under Section 501(a) of the Internal Revenue Code. Effective January 1, 2010 the Council moved the plan assets from SunTrust bank to The Hartford Financial Services Group, Inc. This move allowed the participants to have control over their accounts from a menu of funds selected by the Council. The Plan assets contain no securities of or loans to the Commission or any other related party.

The Commission's total current-year payroll for all employees is \$2,019,404 of which \$1,837,002 is for employees covered by the Plan. The Commission contributed \$339,577 or 18% of the covered payroll into the Plan for the period ended June 30.

Wilkes	County			5,464		5,464	
		\$ (21,960)	\$	435,254	\$	415,382	\$ (2,088)

Each member municipality and county in accordance with the Commission's by-laws and Georgia laws pays dues for membership based population. The population amount for each member is based on the 2000 census data.

STATISTICAL SECTION

(UNAUDITED)

STATISTICAL SECTION

(UNAUDITED)

This part of the Commission's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Commission's overall financial health.

- Financial Trends These schedules contain trend information to help the reader understand how the Commission's financial performance and wellbeing have changed over time.
- Revenue Capacity These schedules contain information to help the reader assess the Commission's most significant local revenue source, grants and contracts.
- Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Commission's financial activities take place.
- Operating Information These schedules contain service to help the reader understand how the information in the Commission's financial report relates to the services the Commission provides and the activities it performs.

SOURCE: From the Commission's annual financial reports for the respective years.

A - Prior to July 1, 2001, the Commission accounted for all computer related services in a separate internal service fund. At that time, the Commission did not employ a network administration. Network administration duties user are network to the indirect cost fund and employed a network were performed by the GIS technical staff. During fiscal year 2002, the Commission shifted all activities related to the operation & administration of its local area network to the indirect cost fund and employed a network administrator. B - Effective July 1, 2002, the Commission adopted new leave policies. Paid Time Off was created to replace both vacation and sick leave. The new policy allowed existing employees to retain their unused sick leave at June 30, 2002 and use as needed until exhausted.

C- Beginning July 1,2001, the Commission installed an electronic time sheet system (ETS). Prior to installation of this system a manual time sheet system was utilized. Due the nature of the this system, the Commission tracked hours for leave time but allocated employee's salary based on the employee's total time charged to all activities. Leave taken was excluded from the total time to allocated

CENTRAL SAVANNAH RIVER AREA REGIONAL COMMISSION NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2010

(1) GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal assistance programs of the Central Savannah River Area Regional Commission (Commission). The Commission reporting entity is defined in Note 1.A of the basic financial statements. Federal assistance received directly from federal or state agencies, as well as federal financial assistance passed through state agencies, are included on the schedule.

(2) BASIS OF ACCOUNTING

Except as noted in 3 below the accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1.C of the basic financial statements.

(3) SPECIFIC TO ITEM ON SCHEDULE

Note A - The reporting entity received a \$1,000,000 grant in a prior year to capitalize a revolving loan fund (RLF). All of the funds have been lent and the funds continue to revolve as payments are received. The expenditure of Federal awards is computed in accordance with the OMB A-133 Compliance Supplement for CFDA #11.307. The amount reported as Federal expenditures follows:

Balance of RLF loans outstanding at the end of the recipient's fiscal year		\$ 1,802,851
Cash and investment balance in the RLF at the end of the recipient's fiscal year		195,338
Administrative expenses paid out of RLF income during the recipient's fiscal year	\$ 169,184	
For the purposes of calculating federal expenditures, RLF recipients are not		
permitted to factor in an allowance for bad debt.	(58,061)	111,123
The unpaid principal of all loans written off during the recipient's fiscal year		17,853
Expenditure of Federal Award CFDA #11.307		\$ 2,127,165

Note B – The Central Savannah River Area Rural Lending Authority, Inc. (CSRA RLA) borrowed \$1,000,000 from the U. S. Department of Agriculture, Rural Development (USDA RD) under a loan agreement dated October 30, 1991. CSRA RLA executed a second loan agreement on July 26, 1994 with USDA RD to borrow an additional \$1,000,000. The CSRA RLA executed an assumption agreement on July 31, 1998 with Georgia Department of Community Affairs f/k/a GHFA Economic Financing Inc. (DCA) and USDA RD conferring to the CSRA RLA the rights and obligations under a note dated May 26, 1994. The principal balance of the note on July 31, 1998 was \$1,918,935. CSRA RLA executed a fourth agreement on December 13, 1999 with USDA RD to borrow an additional \$500,000. CSRA RLA executed a fifth agreement on June 26, 2001 with USDA RD to borrow an additional \$750,000. CSRA RLA borrowed a total of \$5,168,935 from USDA RD.

Prior to July 1, 2009, \$1,738,072 principal was repaid. During FY 2010, \$183,450 principal was paid. At June 30, 2010 \$3,247,413 remains outstanding.

(4) NON-CASH AWARDS

The Commission did not have any non-cash awards during the fiscal year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Council Members Central Savannah River Area Regional Commission Augusta, Georgia

We have audited the basic financial statements of the Central Savannah River Area Regional Commission (the "Commission"), as of and for the year ended June 30, 2010, and have issued our report thereon dated November 17, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the management and Board of Directors of the Central Savannah River Area Regional Commission, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Mauldin & Jerkins, LLC

Macon, Georgia November 17, 2010

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Council Members Central Savannah River Area Regional Commission Augusta, Georgia

Compliance

We have audited the Central Savannah River Area Regional Commission's (the "Commission") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Commission's major federal programs for the year ended June 30, 2010. The Commission's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Commission's management. Our responsibility is to express an opinion on the Commission's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Commission's compliance with those requirements.

In our opinion, the Commission complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the Commission is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Commission's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion the effectiveness of the Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the management and Board of Directors of the Central Savannah River Area Regional Commission, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
