CENTRAL SAVANNAH RIVER AREA REGIONAL COMMISSION

Auditor’s Discussion & Analysis (AD&A)
Financial & Compliance Audit Summary
June 30, 2016

Presented by:
Meredith Lipson, CPA
PURPOSE OF ANNUAL AUDIT AGENDA

♦ Engagement Team and Firm Information

♦ Overview of:
  
  o Audit Opinion;
  
  o Financial Statements, Footnotes and Supplementary Information;
  
  o Compliance Reports;
  
  o Audit Scopes & Procedures

♦ Required Communications under Government Auditing Standards

♦ Accounting Recommendations and Related Matters

♦ Other Items and Closing Thoughts.
MAULDIN & JENKINS – GOVERNMENTAL PRACTICE

General Information:

- Founded in ~1920.
- Large regional firm serving the Southeastern United States.
- Offices located in Macon, Atlanta, Albany, Bradenton, Chattanooga, and Birmingham.
- Approximately 260 personnel are employed at Mauldin & Jenkins.

Governmental Sector:

- Largest specific industry niche served by Firm representing 25% of Firm practice.
- Serve more governmental entities in Southeast than any other certified public accounting firm requiring over 70,000 hours of service on an annual basis.
- Approximately 90 professional staff persons with current governmental experience.
- In past three (3) years, have served approx. 300 governments in the Southeast, including:
  - 85 cities;
  - 40 counties;
  - 40 school systems and 20 charter schools;
  - 40 state entities;
  - 75 special purpose entities (stand-alone entities: water/sewer, transit, gas, electric, airports, housing, development, other educational, retirement, libraries, etc.); and
  - 90 governments receiving the GFOA’s Certificate of Achievement for Excellence in Financial Reporting.
- Auditor of a substantial part of the State of Georgia including approximately 30% of the State’s General Fund, and a substantial number of the State of Georgia’s component units.
- Experience performing forensic audit services and information technology consultations.
- 10th highest level of Single Audits conducted in U.S.A. approximating $8.0 billion annually.

Engagement Team Leaders for the Regional Commission Include:

- Meredith Lipson, Engagement Partner – 25 years experience, 100% governmental
- David Irwin, Quality Assurance Partner – 14 years experience, 100% governmental
- Trey Scott, Engagement Manager – 9 years experience, 100% governmental
MAULDIN & JENKINS – ADDITIONAL INFORMATION

Other Industries & Services by Mauldin & Jenkins:

Each of Mauldin & Jenkins’ offices provides a wide variety of services to a broad range of clientele. We have partners and managers who are responsible for specialized practice areas of auditing and accounting, taxes and management advisory services. Their purpose, as leaders in the particular practice area, is to establish policies with respect to technical matters in these specific areas and ensure that the quality of the Firm's practice is maintained.

Industries Served: Over the years our partners have developed expertise in certain industries representative of a cross section of the Georgia economy, including:

- Governmental Entities (state entities, cities, counties, school systems, business type operations, libraries, and other special purpose entities)
- SEC Registrants
- Wholesale Distribution
- Agri-Businesses
- Manufacturing
- Professional Services
- Employee Benefit Plans
- Financial Institutions (community banks, savings & loans, thrifts, credit unions, mortgage companies, and finance companies)
- Non-Profit Organizations
- Retail Businesses
- Long-term Healthcare
- Construction & Development
- Individuals, Estates and Trusts
- Real Estate Management

Services Provided: This diversity of practice enables our personnel to experience a wide variety of business, accounting and tax situations. We provide the traditional and not-so-traditional services such as:

- Financial Audit / Review / Compilation
- Compliance Audits & Single Audits
- Agreed-Upon Procedures
- Forensic Audits
- Bond Issuance Services
- Performance Audits
- State Sales Tax Matters
- International Tax Matters
- Business & Strategic Planning
- Profitability Consulting
- Budgeting
- Buy-Sell Agreements & Business Valuation Issues
- Income Tax Planning & Preparation
- Multi-State Income Tax Issues
- Information Systems Consulting
- Cost Accounting Analysis
- Healthcare Cost Reimbursement
- Outsourced Billing Services
- Fixed Asset Inventories
- Succession & Exit Strategy Consulting
- Estate Planning
- Management Information Systems
- Employee Benefit Plan Administration
- Merger / Acquisition & Expansion Financing
INDEPENDENT AUDITOR’S REPORT

The independent auditor’s report has specific significance to readers of the financial report.

Management’s Responsibility for the Financial Statements

The financial statements are the responsibility of management.

Auditor’s Responsibility

Our responsibility, as external auditors, is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. We planned and performed our audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Opinions

We have issued an unmodified audit report (i.e., “clean opinions”). The respective financial statements are considered to present fairly the financial position and results of operations as of, and for the year ended June 30, 2016.

Other Matters

Certain required supplementary information and other information is included in the financial report, and as directed by relevant auditing standards, we have not expressed an opinion or provided any assurance on the respective information.

Other Reporting

Government Auditing Standards require auditors to issue a report on our consideration of internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. We have issued such a report and reference to this report is included in the independent auditor’s report.
GENERAL INFORMATION ABOUT THE CAFR

A Comprehensive Annual Financial Report (CAFR) goes beyond the normal financial reporting required by accounting principles generally accepted in the United States. A CAFR includes at a minimum the following elements/sections:

- **Introductory Section:** general information on the Commission’s structure and the services it provides.
  - Letter of Transmittal
  - Organizational Chart
  - Directory of Officials
  - Certificate of Achievement for Excellence in Financial Reporting

- **Financial Section:** basic financial statements, footnotes and required supplementary information along with the auditor’s report.
  - Independent Auditor’s Report
  - Management Discussion & Analysis (MD&A)
  - Financial Statements and Footnotes

- **Statistical Section:** broad range of financial, demographic information useful in assessing the Commission’s economic condition, and this information covers multiple years.
  - Financial Trends Information
  - Revenue Capacity Information
  - Debt Capacity Information
  - Operating Information

In the end, a CAFR goes far beyond the basic requirements of annual financial reporting, and the Commission should be commended for going beyond the minimum and providing such a report.
REVIEW OF COMPREHENSIVE
ANNUAL FINANCIAL REPORT (CAFR)

Recognition and Award

Once completed, the fiscal year 2015 CAFR was submitted to the Government Finance Officers Association (GFOA)) for determination if the report would merit the GFOA’s Certificate of Achievement for Excellence in Financial Reporting. We are happy to report that the GFOA did indeed review the CAFR and awarded the Commission with the sought after Certificate.

The GFOA Certificate has been made a part of the Commission’s 2016 fiscal year CAFR, and is included in the Introductory Section. It is important to note that the Commission has received the Certificate of Achievement for Excellence in Financial Reporting for over 20 years.
COMPLIANCE REPORTS

The financial report package contains two (2) compliance reports.

Yellow Book Report - The first compliance report is a report on our tests of the Commission’s internal controls and compliance with laws, regulations, etc. The tests of internal controls were those we determined to be required as a basis for designing our financial statement auditing procedures. Such tests also considered the Commission’s compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. In accordance with the respective standards, the report is not intended to provide an opinion, but to provide a form of negative assurance as to the Commission’s internal controls and compliance with applicable rules and regulations.

Single Audit Report - The second compliance report is a report on our tests of the Commission’s internal controls and compliance with laws, regulations, etc. relative to certain Federal grant programs and the respective expenditures. In accordance with the respective standards, we did provide an unqualified (or positive) opinion on the Commission’s compliance based on our audit. However, we were not required to provide an opinion on the relevant internal controls, but to provide a form of negative assurance on such controls.

AUDIT SCOPES AND PROCEDURES

1. Governmental audit programs were used in all areas.
2. We confirmed notes receivable and we performed alternate procedures to verify existence of those amounts for which we did not receive a confirmation.
3. For purposes of assessing the adequacy of the allowance for doubtful accounts, we reviewed the aging of accounts receivable, and considered the current economic environment coupled with recent history of the Commission. We also reviewed subsequent collection activity.
4. We reviewed supporting documentation for a sample of additions to capital assets during the year ended June 30, 2016.
5. We performed a search for unrecorded liabilities via review of unpaid vouchers and subsequent disbursements.
REQUIRED COMMUNICATIONS

The Auditor’s Responsibility Under Auditing Standards
Generally Accepted in the United States of America

Our audit of the financial statements of the Commission for the year ended June 30, 2016, was conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error, fraudulent financial reporting or misappropriation of assets. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Accordingly, the audit was designed to obtain reasonable, rather than absolute, assurance about the financial statements. We believe our audit accomplishes that objective.

In accordance with Government Auditing Standards, we have also performed tests of controls and compliance with laws and regulations that contribute to the evidence supporting our opinion on the financial statements. However, they do not provide a basis for opining on the Commission’s internal control or compliance with laws and regulations.

Accounting Policies

Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Commission. There are several new accounting standards which will be required to be implemented in the coming years. These are discussed later in this document.

In considering the qualitative aspects of the Commission’s accounting policies, we did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus. The Commission’s policies relative to the timing of recording of transactions are consistent with GAAP and typical government organizations.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of the preparation of financial statements and are based upon management’s current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. Management has informed us they used all the relevant facts available to them at the time to make the best judgments about accounting estimates and we considered this information in the scope of our audit. We considered this information and the qualitative aspects of management’s calculations in evaluating the Commission’s significant accounting
estimates. Estimates significant to the financial statements include such items as the estimated allowance for uncollectible accounts receivable, and the estimated lives of capital assets.

**Financial Statement Disclosures**

The footnote disclosures to the financial statements are also an integral part of the financial statements. The process used by management to accumulate the information included in the disclosures was the same process used in accumulating the financial statements and the accounting policies described above are included in those disclosures. The overall neutrality, consistency, and clarity of the disclosures was considered as part our audit and in forming our opinion on the financial statements.

**Significant Difficulties Encountered in Performing the Audit**

We encountered no difficulties in dealing with management relating to the performance of the audit.

**Disagreements with Management**

We encountered no disagreements with management over the application of significant accounting principles, the basis for management’s judgments on significant matters, the scope of the audit or significant disclosures to be included in the financial statements.

**Representation from Management**

We requested written representations from management relating to the accuracy of information included in the financial statements and the completeness and accuracy of various information requested by us, during the audit. Management provided those written representations without a problem.

**Management’s Consultations with Other Accountants**

We are not aware of any consultations management had with other accountants about accounting or auditing matters.

**Significant Issues Discussed with Management**

There were no significant issues discussed with management related to business conditions, plans, or strategies that may have affected the risk of material misstatement of the financial statements. We are not aware of any consultations management had with us or other accountants about accounting or auditing matters. No major issues were discussed with management prior to our retention to perform the aforementioned audit.
Audit Adjustments

No audit adjustments were required to be posted to the Commission’s general ledger as a result of our audit procedures, and no adjustments were proposed and passed as of and for the year ended June 30, 2016.

Independence

We are independent of the Commission, and all related organizations, in accordance with auditing standards promulgated by the American Institute of Public Accountants and Government Auditing Standards, issued by the Comptroller General of the United States.

Other Information in Documents Containing Audited Financial Statements

We are not aware of any other documents that contain the audited basic financial statements. If such documents were to be published, we would have a responsibility to determine that such financial information was not materially inconsistent with the audited statements of the Commission.
ACCOUNTING MATTERS

Other Matters for Communication to the Board and Management

As has been the case for the past 10 years, GASB has issued several other new pronouncements which will be effective in future years. The following is a brief summary of the new standards:

a) Statement No. 72, *Fair Value Measurement and Application* was issued in February of 2015, and is effective for financial statements for periods beginning after June 15, 2015 resulting in the Commission’s fiscal year ending June 30, 2016.

This statement addresses accounting and financial reporting issues related to fair value measurements. The definition of *fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes, and also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

This statement generally requires investments to be measured at fair value. An *investment* is defined as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. Investments not measured at fair value continue to include, for example, money market investments, 2a7-like external investment pools, investments in life insurance contracts, common stock meeting the criteria for applying the equity method, unallocated insurance contracts, and synthetic guaranteed investment contracts. A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value per share (or its equivalent) of the investment.

This statement requires measurement at acquisition value (an entry price) for donated capital assets, donated works of art, historical treasures, and similar assets and capital assets received in a service concession arrangement. These assets were previously required to be measured at fair value.

This statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. Governments should organize these disclosures by type of asset or liability reported at fair value. It also requires additional disclosures regarding investments in certain entities that calculate net asset value per share (or its equivalent).
b) Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement No. 68* was issued in June of 2015. The provisions of this standard are two (2) tiered. Amendments to GASB No 68 are required to be reported with the close of June 30, 2016. The elements of this pronouncement dealing with defined benefit pensions that are not within the scope of Statement No. 68 will be have disclosure requirements effective as of June 30, 2016 and financial reporting requirements effective as of June 30, 2017.

The requirements of this statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and non-employer contributing entities.

This statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68 as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement No. 68. It also amends certain provisions of Statement No. 67, and Statement No. 68 for pension plans and pensions that are within their respective scopes.

The requirements of this statement extend the approach to accounting and financial reporting established in Statement No. 68 to all pensions, with modifications as necessary to reflect that for accounting and financial reporting purposes, any assets accumulated for pensions that are provided through pension plans that are not administered through trusts that meet the criteria specified in Statement No. 68 should not be considered pension plan assets. It also requires that information similar to that required by Statement No. 68 be included in notes to financial statements and required supplementary information by all similarly situated employers and non-employer contributing entities.

This statement also clarifies the application of certain provisions of Statements No.’s 67 and 68 with regard to the following issues:

- **Information** that is required to be presented as notes to the 10-year schedules of required supplementary information about investment-related factors that significantly affect trends in the amounts reported.

- **Accounting** and financial reporting for separately financed specific liabilities of individual employers and non-employer contributing entities for defined benefit pensions.

- **Timing** of employer recognition of revenue for the support of non-employer contributing entities not in a special funding situation.
c) **Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans** was issued in June of 2015, and is effective for financial statements for periods beginning after June 15, 2016 resulting in the Commission’s fiscal year ending June 30, 2017. This statement could easily be described as the GASB No. 67 for postemployment benefit plans due to the fact that it will closely follow the provisions of GASB No. 67 for pension plans.

The objective of this statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This statement replaces Statements No. 43, **Financial Reporting for Post-employment Benefit Plans Other Than Pension Plans**, as amended, and No. 57, **OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans**. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, **Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans**, as amended, Statement No. 43, and Statement No. 50, **Pension Disclosures**.

Statement No. 75, **Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions**, establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, as well as for certain non-employer governments that have a legal obligation to provide financial support for OPEB provided to the employees of other entities.

The scope of this statement includes OPEB plans (defined benefit and defined contribution) administered through trusts that meet the following criteria:

- Contributions from employers and non-employer contributing entities to the OPEB plan and earnings on those contributions are irrevocable.

- OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms.

- OPEB plan assets are legally protected from the creditors of employers, non-employer contributing entities, and the OPEB plan administrator. If the plan is a defined benefit OPEB plan, plan assets also are legally protected from creditors of the plan members.
The requirements of this statement will improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information that will be presented by OPEB plans that are administered through trusts that meet the specified criteria. The new information will enhance the decision-usefulness of the financial reports of those OPEB plans, their value for assessing accountability, and their transparency by providing information about measures of net OPEB liabilities and explanations of how and why those liabilities changed from year to year.

The net OPEB liability information, including ratios, will offer an up-to-date indication of the extent to which the total OPEB liability is covered by the fiduciary net position of the OPEB plan. The comparability of the reported information for similar types of OPEB plans will be improved by the changes related to the attribution method used to determine the total OPEB liability.

The contribution schedule will provide measures to evaluate decisions related to the assessment of contribution rates in comparison with actuarially determined rates, if such rates are determined. In addition, new information about rates of return on OPEB plan investments will inform financial report users about the effects of market conditions on the OPEB plan’s assets over time and provide information for users to assess the relative success of the OPEB plan’s investment strategy and the relative contribution that investment earnings provide to the OPEB plan’s ability to pay benefits to plan members when they come due.
d) **Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions** was issued in June of 2015, and is effective for financial statements for periods beginning after June 15, 2017 resulting in the Commission’s fiscal year ending June 30, 2018. This statement could easily be described as the GASB No. 68 for postemployment benefit plans due to the fact that it will closely follow the provisions of GASB No. 68 for pension plans.

The primary objective of this statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans.

The scope of this statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed.

In addition, this statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEB. This statement also addresses certain circumstances in which a non-employer entity provides financial support for OPEB of employees of another entity.
In this statement, distinctions are made regarding the particular requirements depending upon whether the OPEB plans through which the benefits are provided are administered through trusts that meet the following criteria:

- Contributions from employers and non-employer contributing entities to the OPEB plan and earnings on those contributions are irrevocable.
- OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms.
- OPEB plan assets are legally protected from the creditors of employers, non-employer contributing entities, the OPEB plan administrator, and the plan members.

The requirements of this statement will improve the decision-usefulness of information in employer and governmental non-employer contributing entity financial reports and will enhance its value for assessing accountability and inter-period equity by requiring recognition of the entire OPEB liability and a more comprehensive measure of OPEB expense. Decision-usefulness and accountability also will be enhanced through new note disclosures and required supplementary information.

e) Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments was issued in June of 2015, and is effective for financial statements for periods beginning after June 15, 2015 resulting in the Commission’s fiscal year ending June 30, 2016. This statement supersedes Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.

The objective of this statement is to identify (in the context of the current governmental financial reporting environment) the hierarchy of generally accepted accounting principles (GAAP). The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This statement reduces the GAAP hierarchy to two (2) categories of authoritative GAAP and addresses the use of authoritative and non-authoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.
The requirements in this statement improve financial reporting by: (1) raising the category of GASB Implementation Guides in the GAAP hierarchy, thus providing the opportunity for broader public input on implementation guidance; (2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and (3) requiring the consideration of consistency with the GASB Concepts Statements when evaluating accounting treatments specified in non-authoritative literature. As a result, governments will apply financial reporting guidance with less variation, which will improve the usefulness of financial statement information for making decisions and assessing accountability and enhance the comparability of financial statement information among governments.

f) **Statement No. 77, Tax Abatement Disclosures** was issued in August of 2015, and is effective for financial statements for periods beginning after December 15, 2015 resulting in the Commission’s fiscal year ending June 30, 2017.

Tax abatements are widely used by state and local governments, particularly to encourage economic development. For financial reporting purposes, this statement defines tax abatement as resulting from an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens.

This statement requires disclosure of tax abatement information about: (1) a reporting government’s own tax abatement agreements; and (2) those that are entered into by other governments and that reduce the reporting government’s tax revenues. This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients
- The gross dollar amount of taxes abated during the period
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.
Governments should organize those disclosures by major tax abatement program and may disclose information for individual tax abatement agreements within those programs.

Tax abatement agreements of other governments should be organized by the government that entered into the tax abatement agreement and the specific tax being abated. Governments may disclose information for individual tax abatement agreements of other governments within the specific tax being abated. For those tax abatement agreements, a reporting government should disclose:

- The names of the governments that entered into the agreements.
- The specific taxes being abated.
- The gross dollar amount of taxes abated during the period.

**g)** Statement No. 78, *Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans* was issued in December of 2015, and is effective for financial statements for periods beginning after December 15, 2015 resulting in the Commission’s fiscal year ending June 30, 2017.

This new pronouncement amends the scope and applicability of GASB No. 68 to exclude pensions provided via a cost-sharing multiple-employer defined benefit plan that meets the following:

- Plan is **not** a state or local government pension plan;
- Plan is used to provide defined benefit pensions to **both** governmental and private sector employees; and,
- Plan has **no predominant state or local governmental employer** (individually or collectively).

For plans described above, this standard establishes requirements for measurement and recognition of:

- Pension expense;
- Expenditures;
- Liabilities;
- Note disclosures; and,
- Required supplementary information (RSI).

We do not expect this new pronouncement to have a direct effect on the Commission.
h) **Statement No. 79, Certain External Investment Pools and Pool Participants** was issued in December of 2015, and is effective for financial statements for periods beginning after June 15, 2015 resulting in the Commission’s fiscal year ended June 30, 2016.

This pronouncement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes.

This new standard also establishes additional note disclosures for the pool and the pool participants. Specifically, the new disclosures address:

- How the external investment pool transacts with participants;
- Requirements for portfolio maturity, quality, diversification, and liquidity;
- Calculation and requirements of a shadow price (the amortized value rather than the assigned market value which is normally a nominal value of $1.00 per share).

If a pool does not meet the above specifics, then pool participants must measure their investments in that pool at fair value (not at amortized cost), as provided by GASB No. 31.

i) **Statement No. 80, Blending Requirements for Certain Component Units – an Amendment of GASB Statement No. 14** was issued in January of 2016, and is effective for financial statements for periods beginning after June 15, 2016 resulting in the Commission’s fiscal year ending June 30, 2017.

This new standard amends the blending requirements established by paragraph 53 of GASB No. 14. This statement requires blending of not-for-profit component units whose primary government is the sole corporate member. This statement does not apply to component units included in the provisions of GASB No. 39.

We do not expect this new pronouncement to have a direct effect on the Commission.
j) **Statement No. 81, Irrevocable Split-Interest Agreements** was issued in March of 2016, and is effective for financial statements for periods beginning after December 15, 2016 resulting in the Commission’s fiscal year ending June 30, 2018.

Irrevocable split-interest agreements (which are prevalent at colleges and universities) whereby split-interest agreements in which an asset is given to a government in trust. During stated term of the trust the income generated by the trust goes to the donor and when the trust ends then the assets become the governments.

We do not expect this pronouncement to affect the financial reporting of the Commission.

k) **Statement No. 82, Pension Plans** was issued in April 2016, and is effective for the first reporting period in which the Commission’s pension plan’s measurement date is on or after June 15, 2017 (= June 30, 2017). No real significant matters noted in this standard which addresses:

- Presentation of payroll-related measures in the Required Supplementary Information of the annual audited financial report. Covered payroll is defined as the payroll on which contributions are based.
- Selection of actuarial assumptions. Any deviation from guidance of Actuarial Standards Board is not in conformity with GASB No. 67 & 68.
- Classification of payments made by employers to satisfy contribution requirements:
  - Payments made by employer to satisfy contribution requirements that are identified as plan member contributions should be classified as “plan member contributions” for GASB No. 67, and as “employee contributions” for GASB No. 68.
  - Expense to be classified as other compensation elements.
I) Other Pending or Current GASB Projects. As noted by the numerous pronouncements issued by GASB over the past decade, the GASB continues to research various projects of interest to governmental units. Subjects of note include:

- **Capital leases or operating leases** continues to be a hot topic. Looking into whether all leases should be treated the same way. Final standard expected in 2016.

- **Asset retirement obligations** in which the GASB is considering standards for reporting liabilities related to obligations to perform procedures to close certain capital assets, such as nuclear power plants. This concept would not change existing standards such as GASB 18 (landfills) or GASB 49 (pollution remediation). Final standard expected in 2016.

- **Fiduciary responsibilities** and new definitions for fiduciary funds and use of whether a government has “control” and who benefits to determine accounting as fiduciary. Final standard expected in 2016.

- **Re-Examination of the Financial Reporting Model.** GASB has added this project to its technical agenda to make improvements to the existing financial reporting model (established via GASB 34). Improvements are meant to enhance the effectiveness of the model in providing information for decision-making and assessing a government’s accountability. GASB anticipates issuing an initial due process document on this project by the end of 2016.

- **Conceptual Framework** is a constant matter being looked at by GASB. Current measurement focus statements (for governmental funds) to change to near-term financial resources measurement. May dictate a period (such as 60 days) for revenue and expenditure recognition. May expense thing such as supplies and prepaid assets at acquisition. Will look into which balances (at all statement levels) are measured at acquisition and which need to be re-measured at year-end. Project placed on hold for now.

- **Economic Condition Reporting** is another long-term matter being looked into by GASB. Includes presentation of information on fiscal sustainability (including projections). Tabled for now pending resolution to issues raised on GASBs scope.
FREE QUARTERLY CONTINUING EDUCATION
AND NEWSLETTERS FOR GOVERNMENTAL CLIENTS

Free Continuing Education. We provide free quarterly continuing education for all of our governmental clients. Each quarter we pick a couple of significant topics tailored to be of interest to governmental entities. In an effort to accommodate our entire governmental client base, we offer the sessions several times per quarter at a variety of client provided locations resulting in greater networking among our governmental clients. We normally see approximately 100 people per quarter. We obtain the input and services of experienced outside speakers along with providing the instruction utilizing our in-house professionals. We hope Commission staff and officials have been able to participate in this opportunity, and that it has been beneficial to you. Examples of subjects addressed in the past few quarters include:

- Accounting for Debt Issuances
- American Recovery & Reinvestment Act (ARRA) Updates
- Best Budgeting Practices, Policies and Processes
- CAFR Preparation (several times including a two (2) day hands-on course)
- Capital Asset Accounting Processes and Controls
- Collateralization of Deposits and Investments
- Evaluating Financial and Non-Financial Health of a Local Government
- GASB No. 51, Intangible Assets
- GASB No. 54, Governmental Fund Balance (subject addressed twice)
- GASB No. 60, Service Concession Arrangements (webcast)
- GASB No. 61, the Financial Reporting Entity (webcast)
- GASB No.’s 63 & 65, Deferred Inflows and Outflows (webcast)
- GASB No.’s 67 & 68, New Pension Stds. (presented several occasions)
- GASB No. 72, Fair Value Measurement and Application
- GASB No.’s 74 & 75, OPEB
- GASB No. 77, Tax Abatement Disclosures
- GASB Updates (ongoing and several sessions)
- Grant Accounting Processes and Controls
- Internal Controls Over Accounts Payable, Payroll and Cash Disbursements
- Internal Controls Over Receivables & the Revenue Cycle
- Internal Revenue Service (IRS) Issues, Primarily Payroll Matters
- Legal Considerations for Debt Issuances & Disclosure Requirements
- Policies and Procedures Manuals
- Segregation of Duties
- Single Audits for Auditees the Uniform Guidance for New Single Audits
- Sales Tax Accounting, Reporting & Compliance
**Governmental Newsletters.** We periodically produce newsletters tailored to meet the needs of governments. The newsletters have addressed a variety of subjects and are intended to be timely in their subject matter. The newsletters are authored by Mauldin & Jenkins partners and managers, and are not purchased from an outside agency. The newsletters are intended to keep you informed of current developments in the government finance environment.

**Communication.** In an effort to better communicate our free continuing education plans and newsletters, please email Lauren Payne at LPayne@mjcpa.com (send corresponding copy to mlipson@mjcpa.com), and provide to her individual names, mailing addresses, email addresses and phone numbers of anyone you wish to participate and be included in our database.

**CLOSING**

If you have any questions regarding any of the above standards set forth in this memorandum, we will be pleased to discuss it with you at your convenience.

This information is intended solely for the use of the Commission’s management, and others within the Commission’s organization and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate the opportunity to serve the Central Savannah River Area Regional Commission and look forward to serving the Commission in the future. Thank you.
